

Rohan Ganne

+91 8500987778 | gannerohan@gmail.com | Github | LinkedIn

EDUCATION

Gandhi Institute of Technology and Management (GITAM)
B.Tech in Computer Science and Engineering – **CGPA: 8.86/10**

Visakhapatnam, India
Aug. 2024 – Present

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, Python, SQL, HTML/CSS

Frameworks & Libraries: React.js, Node.js, Express.js

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Postman, VS Code, Vercel, Render

Core CS: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP, REST APIs, WebSockets

EXPERIENCE

Infosys Springboard

Software Engineering Intern

Remote
Jul. 2026 – Present

- Building a **Healthcare Management Platform** using React.js, Node.js, Express.js, and MongoDB.
- Implementing backend modules for user authentication, Role-Based Access Control (Doctor, Patient, Admin), and JWT session handling across dashboard APIs.
- Working on FHIR integration to import, validate and manage healthcare data received from hospital and laboratory systems.

GirlScript Summer of Code

Open Source Contributor

Remote
May 2026 – Present

- Merged **5+ pull requests** across multiple open-source repositories, resolving UI bugs and optimizing component responsiveness.
- Improved frontend components, resolved bugs and improved user experience using Git and GitHub workflows.

PROJECTS

Real-Time Code Collaboration Tool | React.js, Node.js, Express.js, WebSockets | [GitHub](#) | [Live Demo](#)

2026

- Built a web-based collaborative editor enabling multi-user real-time code editing using native WebSockets.
- Implemented room-based socket sessions to manage active client connections on the server and isolate editing sessions.
- Structured low-latency bidirectional client-server messaging to broadcast live text updates seamlessly across connected users.

Location Sharing App | React.js, Node.js, Express.js, MongoDB, Google Maps API | [GitHub](#) | [Live Demo](#)

2026

- Developed a location-sharing platform capturing browser Geolocation coordinates and generating unique codes.
- Built backend APIs to store, update and retrieve live location coordinates for connected users.
- Integrated Google Maps API for real-time marker updates and responsive map UI.

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming : Solved **200+ problems** across LeetCode, CodeChef and HackerRank.

Open Source : Merged **5+ pull requests** during GirlScript Summer of Code 2026.

Certifications : HackerRank Frontend Developer (React), Advanced JavaScript, CodeChef Learn C++.

EXTRACURRICULAR ACTIVITIES

Meta Developers Communities & GitHub Community | GITAM

Active Technical Club Member

Visakhapatnam, India
Aug. 2025 – Present

- Participated in technical workshops, coding challenges, and community learning initiatives.
- Collaborated with club teams to develop internal web tools, including a **Recruitment Portal** and an **Attendance Management System**.
- Practiced collaborative development using Git workflows, feature branching, and pull request reviews.
